All about Us

Food Bank Delivery

Our program takes pride in being a community based outreach ministry, founded in 1996. Based out of South Jamaica Queens, we serve the needs of the community by providing them with food donations via the Food Pantry. We

are partially supported by the Food Bank, City Harvest, and various private donations. We are currently serving over 300 families, weekly on Wednesday's. Additionally on Monday's we serve approximately 150 individuals.

Our Food pantry serves as an emergency resource for families faced with a food crisis (this resource is available on a as needed basis). We are open to the general public. Anyone who expresses a need for food will be accommodated regardless of race, culture, disability or sexual orientation.

We believe that everybody can do something to help end hunger in America. With a few dollars to give and few hours to share, you can make an enormous difference in the lives of hungry women, men and children. See the back of this flyers for ideas regarding how you can make a difference.

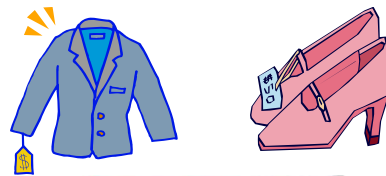

Our Volunteer's

The Food pantry is operated by volunteers that are dedicated to the community. These volunteers collect food, stock shelves, distribute food, unload trucks, and assist with up keep and maintenance of the facility. The volunteers work hard to ensure that recipients receive food in a respectful organized manner, weekly.

Other Programs Offered

Used/New Clothing - We collect and distribute new/ used clothing & shoes once a week

Family Counseling - We offer counselor for couples, families with small children and teenagers
